**Subject:** PFOS and PFOA documents for CPSC review  
**Attachments:** PFOA HA Draft 021216.docx; PFOA Post External Review 010816.docx; HESD PFOS 121715\_lgtg.docx; PFOS HA 02 26 2016.docx

**Importance:** High

Greetings,

My colleague, Jamie Strong, spoke with you earlier this week and provided three documents to you related to work on PFOA and PFOS. We have just completed the draft of the last document, the Health Advisory for PFOS, and I have attached it above along with the others, so you have them all in one email. The documents PFOA HA 021616 and PFOS HA 02 26 16 are approximately 80 pages and summarize the basis for the HAs. The more detailed Health Effects Support Documents (HESD) for PFOA (PFOA 010816) and PFOS (PFOS 121715) are also provided for the sake of completeness; these are much longer and complex documents.

These documents are still in review internally at EPA and may still change as a result of comments we receive. We are requesting that CPSC focus on the dose-response sections of the HAs for PFOA and PFOS (section 6.0), including our selection of the critical study and the exposure scenario. We are requesting comments on any of the first 3 documents by February 29<sup>th</sup>. We are requesting comments on the last document by March 4<sup>th</sup>.

Please call Jamie or me if you have questions.

Many thanks, Betsy

Elizabeth (Betsy) Behl, Director
